

Workgroup

Transportation

Outcome

T1. Older adults in all parts of the country have equitable access to a variety of affordable, accessible, spontaneous and appropriate transportation options that allow them to go where they want, when they want. All options should be tailored by individual abilities to include point to point, curb to curb, door to door, and door through door.

Indicator & Source

Number of trips per year per 100,000 Bexar County residents by type: VIA Trans (Source: VIAtrans Paratransit Service)

Indicator Notes

This indicator includes all population with a disability

OVERALL TREND: Bexar County, 2010-2015

| | 2010 | 2011 | 2012 | 2013 | 2014 | 2015 |
|--|-----------|-----------|-----------|-----------|-----------|-----------|
| Number of VIAtrans trips | 1,040,516 | 1,051,869 | 1,037,936 | 1,046,552 | 1,053,547 | 1,108,413 |
| VIAtrans trips per 100,000 estimated population with a disability (all ages) | 480,899 | 449,647 | 455,969 | 434,898 | 417,202 | 432,158 |
